

Price list for charts and related products

Prices valid for 2023

The Danish Geodata Agency has intellectual property rights over its data and products. Terms and conditions associated with purchasing do not appear on this list. If you have questions please contact the Danish Geodata Agency at soe_policy@gst.dk.

Purchasing of official electronic charts (ENC) for navigation in ECDIS systems must go through IC-ENC's distribution network, called VAR. It is possible to see the current Value Added Resellers (VAR) [here](#).

Please refer to our distributor, Stibo Complete, for inquiries regarding purchase of nautical publications or printed paper charts. You can purchase nautical publications and printed paper charts [here](#).

Purchase of digitized paper charts (single charts)

Digitized paper charts can be delivered as Tiff-format, GeoTIFF-format or as pdf -file.

Not all charts are available in all formats.

Please note that digitized paper charts in pdf-files are not suitable for navigational purpose.

Table 1. Purchase of digitized paper charts (single charts)

DKK	Excl. VAT	Incl. VAT
Price for a digitized paper chart (private person, one user)	720.00	900.00
Price for a digitized paper chart (firms and organizations)	2,200.00	2,750.00

Purchase of digitized paper charts for entire waters

It is possible for firms and organizations to buy the current paper charts as digitized charts in raster format for either all the Danish waters, the Greenlandic waters or both. Digitized paper charts can be delivered as Tiff-format, GeoTIFF-format or as pdf -file.

Not all charts are available in all formats.

Please note that digitized paper charts are not suitable for navigational purpose.

The price is a one-time purchase and includes permission for use within the buying firm.

The buying firm is responsible for maintaining its portfolio through purchase of single charts.

It is possible to get a limited permit to reproduction together with the purchase.

Table 2. Purchase of digitized paper charts for entire waters

kr.	Excl. VAT	Incl. VAT
Purchase of digitized paper charts in Danish waters (69 charts)	110,000.00	137,500.00
Purchase of digitized paper charts in Greenlandic waters (104 charts)	110,000.00	137,500.00
Purchase of all digitized paper charts in both Danish and Greenlandic waters	165,000.00	206,250.00

Purchase of digitized educational paper charts as a pdf-file

It is possible for approved providers of certificates of proficiencies etc. to purchase digitized educational charts for educational or censor purpose as a pdf-file. The file will be provided with a watermark and it is not possible to print the file.

Table 3. Purchase of charts for educational purpose as a pdf-file (solely for approved teachers for educational purpose)

kr.	Excl. VAT	Incl. VAT
Delivery costs for each chart	720.00	900.00

Purchase of data as vector format

It is possible to buy access to single ENC cells or all ENC cells in either Danish waters, Greenlandic waters or both for use within the buying firm or organization for shore-based activities. Data will be delivered in 000.format in WGS84.

It is prohibited to use the data for navigational purpose.

The price for one cell does not contains updates.

Purchasing all cells in one region or both includes the possibility for weekly updates. The price contains access to the cells for one year at a time and for use within the buying firm. If one wishes to have access for more than a year, it is necessary to repurchase the products again the following year.

It is possible to get a limited permit for reproduction together with a purchase of entire regions.

Table 4. Purchase of data in vector format for use within the buying firm or organization

DKK	Excl. VAT	Incl. VAT
Purchase of a single cell in Danish or Greenlandic waters as vector format	2,200.00	2,750.00
Purchase of all cells in Danish or Greenlandic waters as vector format	110,000.00	137,500.00
Purchase of all cells in both Danish and Greenlandic waters as vector format	165,000.00	206,250.00

Purchase of depth data or extraction from ENC

At the Danish Geodata Agency's [home page](#) it is possible to see polygons for Danish and Greenlandic waters that contains information about surveys in different areas.

Purchase of depth data or extraction from ENC requires permission for the specific buyer and the specific purpose.

Table 5. Purchase of depth data or extraction from ENC

DKK	Excl. VAT	Incl. VAT
Delivery costs per started hour	905.00	1,131.25
Price for each km ²	50.00	62.50

Prices per hour

For other enquires where the price depends on hours spend, the price is dependent of the type of the enquiry. We distinguish between a price for a technician and a price for a specialist.

Table 6. Prices per hour

DKK	Excl. VAT	Incl. VAT
Price for a technician per hour	720.00	900.00
Price for a specialist per hour	905.00	1,131.25

Permission for reproduction, including license agreements by using the Danish Geodata Agency's charts or products for articles, videos, marketing etc.

The Danish Geodata Agency has intellectual property right over its data and products. As a firm or organization, it is possible to enter into an agreement in case one, for instance, wishes to use cut from charts or other products in articles, videos, marketing etc.

The price is based on a specific and individual assessment.
